**Wednesday, 7 December, starting 16:00**

## **Poland, the New IT Hub of Europe**

### **Meet Acaisoft, provider of custom software for the cloud**

Poland is a major IT powerhouse. The IT industry constitutes about 8% of the country's GDP, continuously growing in its value. While businesses around the world are struggling to find skilled specialists, Poland has much available highly-skilled IT workforce to offer. The main reason is the country's strong educational base. Each year in Poland tech universities graduate 78,000 ICT students on average. The extensive base of unique IT talents has helped Poland to turn into one of the major IT leaders in the world, especially in cloud services, FinTech, blockchain, health tech, automotive, and game dev sectors.

Acaisoft, <https://www.acaisoft.com/>, is a rapidly developing and trusted IT consulting company that focuses on custom software development in the cloud. The company has offices in Warsaw, Gdańsk and Białystok in Poland as well as in San Jose in the USA and offers its expertise in software development, cloud infrastructure and data engineering.

Over the last 7 years Acaisoft has successfully delivered countless projects and has helped multiple companies from multiple different sectors and in multiple countries. Over this time, Acaisoft has become a widely recognizable brand in the Polish market and hence gained access to Poland's top talent. The company also partners with inventive start ups as well as technological giants from Silicon Valley and Europe.

Acaisoft already has numerous customers in Sweden and is looking forward to finding yet more business contacts both in Sweden, in other Scandinavian countries and elsewhere.

**Swedish-Polish Chamber of Commerce in Stockholm**, in cooperation with the Polish Embassy in Stockholm, Polish Investment & Trade Agency, Acaisoft, Polish Chambers of Commerce Abroad, Explore Markets, LEOCODE, Prognetics, WAZA network, Rödl & Partner, ARPI Accounting, Spanish-Polish Chamber of Commerce in Madrid and JMR, has the pleasure to invite to a seminar combined with a networking event, in Stockholm and online.

## Our speaker

**Łukasz Potapczuk** is Chief Operating Officer at Acaisoft where he previously served as Software Engineer, Technical Program Manager and Director of Engineering. He also co-funded Bluneral and founded Ayup Inc. Łukasz is a highly praised speaker at conferences and a word class triathlete. He is a Master of Science in Computer Science and he holds a Bachelors degree in Quantitative Methods in Economics and Information Systems from SGH Warsaw School of Economics. His academic merits also include studies at the University of Hong Kong.

This free of charge seminar/networking event will take place in Stockholm, at Bonnierhuset, Torsgatan 21, level 3, conference room Hela Världen. It will also be possible to attend online via Zoom. A link will be emailed to all participants. Those attending the event in person will have the possibility to participate in networking as well as enjoy beverages and canapés.

Please sign up by email to [info@svenskpolska.se](mailto:info@svenskpolska.se). For each participant please provide name, job title and email address. If possible, please state whether the participation is likely to be in person or online. For further information please call +46 709 996 630.
