

Swedish-Polish Chamber of Commerce in Stockholm, in cooperation with the Polish Embassy in Sweden, Polish Agency for Investment and Trade PAIH, Saab, Epiroc, Ericsson Poland, Bulten, Lesslie Technologies, Directpl, Katowice Special Economic Zone, Software Mind, ARPI Accounting, Ebury, ASD Systems, EMA Partners, Explore Markets, Polish Chambers of Commerce Abroad, Pikus.IT, Target Redovising, Waterwalk Partners, Rödl & Partner, GS Services, Datumo, goodylabs and WoW! Agile has the pleasure to invite to a free of charge seminar at Bonnierhuset in Stockholm and online.

Technology at Its Best

Bonnierhuset in Stockholm and online, Thursday, 5 October, 13.00-15.00

The Topic

You will meet some of the companies and individuals at the forefront of technological progress on Earth and in Space. Our speakers will talk about such diverse topics as space technology, the use of AI in telecom networks, innovations for and within the manufacturing industry, software and digital solutions for international trade as well as for the mining industry.

One thing all our speakers and panelists have in common is commitment to always strive for excellence and cutting edge inventions. But is the pace of technological development sufficient to fulfill the goals and the needs of the business community as well as the society?

The Program

- **Hans-Jacob Bonnier**, Chairman, **Swedish-Polish Chamber of Commerce** - "Opening remarks"
- **Jenny Gardner**, Head of Strategy and Portfolio, Combat Systems, **Saab** - "System-of-systems on Earth and in Space"
- **Fredrik Lindström**, Regional Application Center Manager, **Epiroc** - "Digital solutions for mining safety"
- **Gunnar Rytterling**, CEO, **Lesslie Technologies** - "Save time and money on cross-border payments"
- **Emmy Pavlovic**, Senior Vice President, Technology and Innovation, **Bulten** - "Continuous innovation - a must in the manufacturing industry"
- **Martin Mellor** (via link from Warsaw), Key Account Manager for Poland, Czech Rep. and Slovakia, **Ericsson** - "The use of AI in telecom networks"
- Panel discussion "Is the pace of technological development sufficient to fulfill the goals of the business community and the society?", with the participation of **Angelo Pressello**, CEO, **Directpl**, **Petra Carlberg**, Manufacturing Development Manager, **IKEA Industry**, **Daniel Bergkvist**, Group Power Manager, **Arctic Paper**, **Theodore Anderson**, Key Account Director – Nordic Markets, **Ebury**, **Damian Mazurek**, Chief innovation Officer, **Software Mind**, as well as a representative of the **Katowice Special Economic Zone**.
- Refreshments and networking.

Swedish-Polish Chamber of Commerce in Stockholm, in cooperation with the Polish Embassy in Sweden, Polish Agency for Investment and Trade PAIH, Saab, Epiroc, Ericsson Poland, Bulten, Lesslie Technologies, Directpl, Katowice Special Economic Zone, Software Mind, ARPI Accounting, Ebury, ASD Systems, EMA Partners, Explore Markets, Polish Chambers of Commerce Abroad, Pikus.IT, Target Redovising, Waterwalk Partners, Rödl & Partner, GS Services, Datumo, goodylabs and WoW! Agile has the pleasure to invite to a free of charge seminar at Bonnierhuset in Stockholm and online.

The Speakers

Jenny Gardner is Head of Strategy & Portfolio, Combat Systems (CS) at Saab. She is responsible for the strategy within Saab's Core Area "Command & Control" and leads business & financial business planning for Saab's CS business. She manages CS's Innovation work as well as University R&D collaborations. Jenny leads parts of Saab's Space and Cyber business. She focuses in particular on the System-of-System perspective and the huge potential of software driven technology development. Saab serves the global market with world-leading products, services and solutions from military defence in all domains to civil security.

Fredrik Lindström is Regional Application Center (RAC) Manager at Epiroc. RAC's goal is to provide focus and support to partners in the Nordics on the ongoing transformation journey within the automation, digitalization and electrification of the mining and construction industry, using Epiroc's product portfolio and digital ecosystem. Fredrik held previously the position of Product Manager - Automation at Epiroc and worked in surface mines in Sweden and Finland with remote control and automation. Epiroc is a global productivity partner for mining and infrastructure customers, accelerating the transformation toward a sustainable society.

Gunnar Rytterling is co-founder and CEO of Lesslie Technologies. He is a strategic partner and business developer with 10+ years of banking and financial services background. His strengths include powerful entrepreneurship combined with a demonstrated history at the capital markets trading floor at Nordea, within particularly FX as well as Structured Products and Interest Rates Derivatives. Gunnar has extensive experience of using technology from a business perspective. This gives him an edge in developing new ways of distributing and growing business with digital assets supporting the delivery. Lesslie Technologies is the future of cross-border payments. The company facilitates international trade, offering the innovative payment solution Lesslie PAY.

Swedish-Polish Chamber of Commerce in Stockholm, in cooperation with the Polish Embassy in Sweden, Polish Agency for Investment and Trade PAIH, Saab, Epiroc, Ericsson Poland, Bulten, Lesslie Technologies, Directpl, Katowice Special Economic Zone, Software Mind, ARPI Accounting, Ebury, ASD Systems, EMA Partners, Explore Markets, Polish Chambers of Commerce Abroad, Pikus.IT, Target Redovising, Waterwalk Partners, Rödl & Partner, GS Services, Datumo, goodylabs and WoW! Agile has the pleasure to invite to a free of charge seminar at Bonnierhuset in Stockholm and online.

The Speakers

Emmy Pavlovic has been Senior Vice President Technology & Innovation at Bulten for the last 3 years. She was previously Technical Account Manager at Arcam and she also has 11 years of experience from leading technical positions at the fastener supplier Nedschroef in the Netherlands, China and Sweden. Emmy has a Master's degree in engineering physics from Chalmers University of Technology in Gothenburg and a doctorate in material science from Delft University in the Netherlands. Bulten develops high-tech fasteners for a range of industries including automotive and electronics, always with a focus on sustainability and innovation.

Martin Mellor is Key Account Manager for Poland, Czech Rep. and Slovakia at Ericsson. He is also President of the Board of Ericsson Poland and works with external stakeholders to promote Ericsson as the 5G technology and market leader. Martin has been working at Ericsson since 2006. He was previously responsible for coordinating the sales area of broadband access systems and IP solutions sales support for customers from Western and Central Europe. Furthermore, he was Technical Director for Central Europe. Ericsson's activities in Poland began in 1904 when the first communications switchboard was operational. Today Ericsson is a big investor in Poland with 2000 employees of which 1700 are R&D engineers in Kraków and Łódź plus there is 4G/5G radio and baseband production in Tczew.

The registration and the attendance

This free of charge seminar will take place in Stockholm, at Bonnierhuset, Torsgatan 21, level 3, conference room Hela Världen, one level below the entrance to the building. Those who attend in person will be after the seminar able to network with the speakers, the panelists and with other attendees. It will also be possible to attend online via Zoom. A link will be made available to all online participants and displayed at LinkedIn no later than 1 October. Please sign up at <https://svenskpolska.se/en/events-en/> or by email to info@svenskpolska.se. For each registrant please provide name, job title and email address. If possible, please state whether the participation is likely to be in person or online. For further information please call +46 709 996 630.
